

NeuroKids

Mathematics System

Build math skills, logic & problem-solving for kids

Welcome to NeuroKids Math System™ ✨

Thank you for choosing NeuroKids Math System™, a simple and engaging learning program designed to help children build strong math foundations.

Inside this guide, you'll find easy access to all the learning materials included in your purchase. Each section contains printable activities created to support early math skills, focus, and confidence.

The activities are designed to be:

Simple to follow

Brain-friendly for young learners

Fun and engaging

Easy for parents to use at home

From number practice to problem solving activities, everything is organized so you can quickly find what your child needs.

👉 Please read this guide first before accessing the materials.

How to Use This Guide

Getting started is simple.

Follow these steps to access your materials:

- Open this guide on your device.
- Click the “Access Materials” button in each section.
- The activity files will open in a new tab or folder.
- Download or print the materials you want to use.
- You can print the worksheets as many times as needed so your child can practice and improve over time.

Tip:

Short daily practice sessions (10–15 minutes) work best for young learners.
